Gabriel Barboza

GEOSPATIAL DATA ANALYST · SPATIAL ANALYSIS · LOCATION INTELLIGENCE

Brazil (UTC-3) · gabrielb.lourenco3@gmail.com · +55 19 99629-2575 · www.linkedin.com/in/gabriel-barboza-lourenco

PROFILE

Geospatial data analyst working on the data side of urban and territorial planning: organizing datasets, structuring spatial databases, producing indicators, and turning them into maps, dashboards and technical reports that planners and decision-makers use. Background in Architecture and Urban Planning (UTFPR, Brazil), with three years on large-scale public planning projects including metropolitan regions and municipal master plans. Combines spatial analysis and data analysis with genuine territorial planning domain knowledge, and writes the interpretation: what the numbers mean for a decision.

Portfolio: https://gabrielloubarboza.github.io/

CORE SKILLS

Geospatial	QGIS | Spatial Analysis | Geoprocessing | Thematic Mapping | Overlay & Proximity Analysis | Land-Use Analysis | Location Intelligence
Data	Python | PostGIS | Spatial Databases | Data Cleaning & Standardization | Data Integration | Territorial, Statistical & Socio-Economic Indicators
Analytics	Power BI | Microsoft Excel | Data Visualization | Segmentation | Comparative Analysis | Technical Reporting
Domain	Urban & Regional Planning | Territorial Diagnostics (baseline spatial assessments) | Public Datasets (census, statistics, environmental, tax, social registries) | Urban Planning Legislation
Business Management	Project administration and planning | Operational organization of activities | Candidate selection, onboarding, and offboarding | Team management and development

PROFESSIONAL EXPERIENCE

Geospatial Data Analyst — May 2026 – Present

Consulting — Remote from Brazil

Projects in geospatial analysis and geoprocessing for real estate developers and agencies.

- Structure spatial databases and write queries to organize urban territorial datasets.
- Build integrated workflows across QGIS, PostGIS and Power BI to deliver maps and interactive reports.
- Perform critical spatial analysis of urban indicators, from data preparation through to interpretation.
- Clean, cross-reference and standardize geographic, legal, budgetary and statistical data so it can be compared and reused.
- Produce diagnostic assessments and recommendations for urban and social development policy.

Monitoring & Research Technical Team — Sep 2024 – Dec 2025

IPPUC — Curitiba Institute for Urban Planning and Research — Curitiba, Brazil

Institute responsible for the city's planning instruments and urban policies. Member of the technical team supporting the revision of the Curitiba Municipal Master Plan, capital of the state of Paraná (the city's statutory land-use and development plan).

- Produced thematic maps in QGIS for technical studies feeding the Master Plan revision.
- Cleaned, analyzed and organized municipal, state and federal datasets, standardizing them for combined analysis.
- Built and systematized territorial, statistical and socio-economic indicators.
- Developed interactive Power BI dashboards integrated with GIS data to present findings to planning teams.
- Applied spatial analysis to interdisciplinary technical studies and structured data and mapping outputs for technical reports.

Urban Planning Technical Team — Feb 2023 – Jul 2024

URBTEC TM Engenharia, Planejamento e Consultoria — Curitiba, Brazil

Brazilian engineering, planning and consulting firm delivering statutory territorial planning projects for public authorities. Intern in project management on two large-scale planning contracts: the Integrated Urban Development Plan for the Curitiba Metropolitan Region (PDUI-RMC) and the João Pessoa Municipal Master Plan (PDM-JP), both large state capitals in Brazil.

- Produced metropolitan-scale territorial diagnostics (baseline spatial assessments) informing planning decisions.
- Cleaned and standardized municipal and regional geospatial datasets to make them comparable across jurisdictions.
- Cross-referenced territorial, statistical and socio-economic data to build urban indicators.
- Structured territorial datasets for comparative analysis between municipalities.
- Supported the production of technical reports and institutional documents, and produced final maps and graphic outputs.

COMPLEMENTARY PROFESSIONAL EXPERIENCE

Administrative Coordinator Mar 2026 – Present

H Lourenço Piracicaba, Brazil

Accounting and business services firm serving companies across multiple sectors.

- Organize financial, accounting, tax, payroll and corporate data to support client management and decision-making.
- Develop spreadsheets, controls and reports in Excel for monitoring clients, companies, fees and operational demands.
- Standardize internal processes, documents and workflows to improve operational efficiency and information management.
- Manage direct client relationships, including negotiations, service proposals, scope and resolution of operational issues.
- Manage and develop teams, personnel, and processes, including metric analysis, conducting periodic operational reviews, recruitment and offboarding, resolution of critical situations, and internal relations.

SELECTED PROJECTS

1. Between Slopes and Water

Susceptibility analysis to natural processes, integration of geospatial data, and mapping on the northern coast of São Paulo state

https://gabrielloubarboza.github.io/projetos/litoral-norte/

2. Accessibility to Primary Health Care

Network-based spatial analysis, geographic data processing, simulation, and organization of results in Piracicaba/SP

https://gabrielloubarboza.github.io/projetos/piracicaba/

3. Land Cover Classification

Exploratory study using Sentinel-2 imagery, spectral indices, and classification rules in QGIS in São Sebastião, São Paulo (SP)

https://gabrielloubarboza.github.io/projetos/maresias/

4. Territorial Inequality in Public Transport

Integration of census data and GTFS, PostGIS, geographic analyses, and territorial indicators in Seville, Spain

https://gabrielloubarboza.github.io/projetos/sevilha/

PUBLICATIONS

Member of the technical team that authored **"Caderno Ilustrado de Normas e Legislações Urbanísticas — Guia Prático de Urbanismo"** (Illustrated Handbook of Urban Planning Standards and Legislation — A Practical Guide), URBTEC, published July 2023.

Authored an article for INCBAC (Czech-Brazilian Institute for Academic Cooperation) titled **"The adequacy of urban planning policies in Brazilian cities in response to the effects of climate change"**, INCBAC, published September 2024.

EDUCATION

Bachelor of Architecture and Urbanism — Universidade Tecnológica Federal do Paraná (UTFPR) Dec 2025

LANGUAGES

Portuguese — Native

English — Fluent (C1 – full professional proficiency)

French — Intermediate (B2 – limited operational proficiency)

Spanish — Basic (A2 – basic user)
